

# English presentation

## Slide 1 :

- Hello,
- we are going to present you the website we have created
- named "Travel & Learn"

## Slide 2 : Introduction

- Nowadays, more and more people are tempted to travel for work or pleasure
- English is the more spoken language in the world -> can be very used
- We have decided to create a website that helps people to travel by learning the basis of English and by learning a specified vocabulary with a cultural guide for Australia, New Zealand, the UK and the USA

## Slide 3 : Table of contents

- First, we are going to present you the website
- Then, we are going to tell you about the technical part of the website
- Plus, we are going to do a demonstration of the website
- Finally, we will conclude

## Slide 4 : Culture

- In the "Culture" section, there is a culture guide for 4 countries : The USA, the UK, Australia and New Zealand
- The first part is the "in Biref" section is where there are practical informations like the currency or the calling code -> goal : to have the main informations about the country
- The food section : to help you discover the local specialties. With photos of dishes you could try and a brief description of the local cuisine.
- The "things to do" section : there are 5 things you can do in each countries. For each place there is a picture, the location, an historical summary, the number of visitors per years -> to help you discover the best places of the country, we have selected the places with different travel agency websites

## Slide 5 : Vocabulary

- In the "Vocabulary" section, there are 4 themes: Hotel, Food, Travel, Health
- Each section is divided in subsection -> easier to find the word you need
- Helpful for your most common encounters

## Slide 6 : Grammar

- 5 sections -> the different tenses : Present, Present perfect, Past, past perfect, Future
- For each tense - > simple form and continuous form
- Lessons and exercises for the 2 forms
- Its quick and easy learning -> goal : learn the basis of English

## Slide 7 : Technical Part

- Html, css -> easy to use, you can learn quickly how to use it -> you can easily add more exercises, vocabulary words etc.
- Improvements possible :
  - Backend -> have a count with statistics
  - After 3 tries a "solution" button appears
  - "To know" section with pre-made sentences with several themes to help you asking questions when you are travelling

Demonstration

Slide 8 : Conclusion

-
